Products Description

MB1024 Intelligent Fixtures Controller, with microcomputer as core, in adoption of new technology, has more powerful and more humanized functions.

DMX512/1990 standard, photoelectric isolation signal output.

Use Library Setup Mode (Compatible with Pearl 2008 Library);

Input control mode of command line makes operation more convenient.

Shape effect is convenient for users to control these many effects to intelligent fixture as circle, shape like 8 and rainbow etc. Parameters (speed, size, spread offset and direction) can be set independently and also outputted in super imposed mode.

Music synchronization, automatic speed control, intelligent manual-run beat control (SWING) and MIDI control is selectable while Multi-Step-Program program is running.

VGA interface is provided to connect up color CRT or LCD; detailed and visualized human-computer interface is easier to control.
